Introducing the new

Setting a new benchmark to kitchen efficiency: Cook faster and cheaper!

Registered Design Burner
No Electricity required
Easy Maintenance

- The most powerful Wok Burner in its class
- No blowers or electrical components required - Less maintenance
- Super efficient 155MJ output Super Chimney Burner
- Award winning Waterless Wok Technology and Design (Patent Pending)
- Save up to 1.6 million litres of water per year whilst improving efficiency*
- Retain your food’s flavour by cooking faster and more efficiently
- Easy cleaning: burner can be removed in 30 seconds by a qualified technician
- Easy service access to all components: no tools required
- Unit can be easily disassembled to fit through most doors.

Simplicity meets Power.

*1.6 million litres/year savings” may vary depending on several factors such as usage frequency, running time and other variables.
Easy to maintain - Burner can be removed in 30 seconds for cleaning.

Removal splashback for easy transport

Industry leading total output of 310 MJ from the unit without blowers and electrical components.

Removable legs for easy transport

Italian made pilots

Australian made pilot valve

Italian made gas burner valve

Italian made gas safety valve

Award winning Waterless Wok Technology

Knee Operated Tap (Optional Extra)

155MJ output high efficiency Super Chimney Burner

Simple and innovative design allowing easy maintenance
